

REBEL STARTER PACK

We are facing an unprecedented global emergency. The government has failed to protect us. To survive, it's going to take everything we've got.

This document provides a brief introduction to Extinction Rebellion, along with links to more detailed information about the movement and suggestions for how you can get involved.

WHAT IS EXTINCTION REBELLION?

Extinction Rebellion
(XR) is an international
movement that uses
nonviolent civil
disobedience to achieve
radical change in order
to minimise the risk of
human extinction and
ecological collapse.

On 31st October 2018, we assembled on Parliament Square in London to announce a [Declaration of Rebellion](#) against the UK Government. We were expecting a couple of hundred people. Instead, 1500 came to participate in peaceful civil disobedience. The energy was contagious!

The next few weeks were a whirlwind. Six thousand of us converged on London to peacefully block five major bridges across the Thames. We planted trees in the middle of Parliament Square, and dug a hole there to bury a coffin representing our future. We super-glued ourselves to the gates of Buckingham Palace as we read a letter to the Queen.

Our actions generated huge national and international publicity and, as news spread, our ideas connected with tens of thousands of people around the world. The XR project was resonating with a deeply felt need for community and solidarity. “We are the ones we’ve been waiting for,” we chanted!

Dozens of countries now have groups springing up, from the Solomon Islands to Australia, from Spain to South Africa, the US to India.

So what’s next?

We are working relentlessly, building our movement in preparation for phase two, an international rebellion that will begin on 15th April 2019.

So come and join us. Rebel for life. For the planet. For our children’s children’s futures. There is so much work to be done.

WHY DO WE NEED TO REBEL?

We will not be led quietly to extinction by the elites and politicians. Conventional campaigning has failed. Carbon emissions have increased by 60% since scientists first warned of ecological collapse in 1990.

We will work together with love, compassion, honour, resilience, and peace, using nonviolent civil disobedience in the spirit of all those who fought for our freedoms before us.

We call on every one of you, regardless of your political beliefs, to join us in fighting for the survival of life on earth.

94 academics supporting our [Declaration of Rebellion](#) signed an [Open Letter](#) to The Guardian saying:

“We will not tolerate the failure of this or any other government to take robust and emergency action in respect of the worsening ecological crisis. The science is clear, the facts are incontrovertible, and it is unconscionable to us that our children and grandchildren should have to bear the terrifying brunt of an unprecedented disaster of our own making.

We are in the midst of the sixth mass extinction, with about 200 species becoming extinct each day. Humans cannot continue to violate the fundamental laws of nature or of science with impunity. If we continue on our current path, the future for our species is bleak.

Our government is complicit in ignoring the precautionary principle, and in failing to acknowledge that infinite economic growth on a planet with finite resources is non-viable. Instead, the government irresponsibly promotes rampant consumerism and free-market fundamentalism, and allows greenhouse gas emissions to rise.”

This was followed by a [Second Open Letter](#) signed by (among others): Dr Vandana Shiva, Naomi Klein, Noam Chomsky, Prof AC Grayling, Philip Pullman, Dr Rowan Williams, and Bill McKibben.

WHAT DO WE WANT TO ACHIEVE?

We have three demands:

One That the Government must tell the truth about how deadly our situation is, it must reverse all policies not in alignment with that position and must work alongside the media to communicate the urgency for change including what individuals, communities and businesses need to do.

Two That the Government enact legally-binding policies to reduce carbon emissions in the UK to net zero by 2025 and take further action to remove the excess of atmospheric greenhouse gases. It must cooperate internationally so that the global economy runs on no more than half a planet's worth of resources per year.

Three By necessity these demands require initiatives and mobilisation of similar size and scope to those enacted in times of war. We do not, however, trust our Government to make the bold, swift and long-term changes necessary to achieve this and we do not intend to hand further power to our politicians. Instead we demand a Citizens' Assembly to oversee the changes, as we rise from the wreckage, creating a democracy fit for purpose.

Follow up questions

What would it mean for the Government to tell the truth?

Is it possible to reduce carbon emissions to net zero?

What is a Citizens' Assembly?

HOW DO WE ORGANISE?

We organise in small groups. These groups are connected in a complex web that is constantly evolving as we grow and learn. We are working to build a movement that is participatory, decentralised, and inclusive.

The structure aims to empower anybody to act as part of XR, so long as they agree to follow our ten core principles (see next page). You can read our [Self-Organising System](#) for more information. We are seeking a balance between being able to act quickly in response to fast-changing situations and being able to integrate the collective wisdom of multiple perspectives when needed.

Here is a [Visual Representation](#) of the **Working Groups** and **Strategy Groups** that are organising at a UK-wide level, and this constantly evolving [spreadsheet](#) contains more information about each of these groups.

There are almost one hundred [Local Groups](#) across the UK, each of which is building its own structures with different working groups.

And we are creating a network of **Affinity Groups**: small teams of about 8-12 people who work together and support each other at actions, working in line with our [Action Consensus](#).

OUR PRINCIPLES

1. We have a shared vision of change *creating a world that is fit for the next 7 generations to live in.*

2. We set our mission on what is necessary *mobilising 3.5% of the population to achieve system change – such as “momentum-driven organising” to achieve this.*

3. We need a regenerative culture *creating a culture which is healthy, resilient and adaptable.*

4. We openly challenge ourselves and this toxic system *leaving our comfort zones to take action for change.*

5. We value reflecting and learning *following a cycle of action, reflection, learning, and planning for more action. Learning from other movements and contexts as well as our own experiences.*

6. We welcome everyone and every part of everyone *working actively to create safer and more accessible spaces.*

7. We actively mitigate for power *breaking down hierarchies of power for more equitable participation.*

8. We avoid blaming and shaming *we live in a toxic system, but no one individual is to blame.*

9. We are a non-violent network *using nonviolent strategy and tactics as the most effective way to bring about change.*

10. We are based on autonomy and decentralisation *we collectively create the structures we need to challenge power. Anyone who follows these core principles and values can take action in our name.*

WHAT ARE OUR UPCOMING PLANS?

15th April 2019 marks the start of an international period of rebellion.

In the UK, this means tens of thousands of people congregating in the centre of London for one of the biggest acts of peaceful civil disobedience in living memory. Time is running out. We have to act now.

Every one of us is now busy organising in preparation for April. Training is taking place across the country; local groups are carrying out smaller actions to build experience and numbers; logistics teams are readying themselves for the work that is to come.

HOW CAN YOU GET INVOLVED?

JOIN US IN LONDON AT THE INTERNATIONAL REBELLION FROM 15TH APRIL 2019

PARTICIPATE IN THE INTERNATIONAL REBELLION

Fill in [this form](#) to let us know how you would like to participate and, if you can, please book time off work from the 15th onwards.

VOLUNTEER IN A KEY ORGANISING ROLE

We need skilled and committed volunteers to take on key organising roles in preparation for the international rebellion beginning 15th April. These roles require a regular time commitment until at least the end of April: full-time, part-time, or one full working day a week as part of a job share. If you would like to take on one of these responsibilities, please get in contact asap via [this form](#) and we will be in touch soon to integrate you into your new role.

JOIN YOUR LOCAL XR GROUP

Help build our grassroots movement by spreading the XR message in your community. Join an affinity group, organise in a local working group, and attend training sessions to prepare for the international rebellion. [Here](#) is a local group map, including contact details.
